MIXTURA PARA TERCIANAS
DE JAYNE,
A CERTAIN AND EFFECTUAL REMEDY
For Fever and Ague, Intermittent and Remittent Fevers, &c.

This class of diseases, so common in all part of the world, and specially prevalent in malarious districts and vicinage of water courses, are almost invariably accompanied by more or less derangement of the liver, and frequently by a defective action of the digestive organs.

The mere breaking of the Chills is but a step towards completing a radical cure The various organs of the body, especially the stomach and liver, must be brought to a healthy and vigorous condition before a permanent cure can be established, and this fact has been specially kept in view by Dr. Jayne in his treatment of these complaints. The use of Jayne's Ague Mixture in conjunction with the Sanative Pills, as prescribed in the directions which accompany each bottle, will not only

Break up the Chills,

But restore the system more particularly the liver and stomach, to a sound condition, and so prevent a relapse of Fever and Ague, by thoroughly

Eradicating the Dissase,

And the best evidence of this is the invariable success which has always followed the administration of these remedies, as attested by the certificates published annually in Dr. Jayne's Almanac, and the wide-spread popularity of the Ague Mixture in those districts of the United States, where these diseases, for which it is adapted, most prevail.

All Dr. D. Jayne's Family Medicines are prepared only at 242 Chestnut-street, Philadelphia, and are sold by Druggists everywhere.

THE TRUE
THEORY OF PURGATION,
Applied to the
Liver, Kidneys, Skin, Stomach, and Bowels.

DR. RADWAY'S
Perfect
PURGATIVE PILLS,

Perfectly tasteless—Elegantly Coated.

'Materia Medica' contains, in its repertoire, many purgative and cathartic agents that, for ordinary purposes, opens the bowels, and through what is called a 'peristaltic' movement, purges from the alimentory canal the feces, and this is all. Such agents, for the purpose of cure, or removal of any settled cure, are perfectly useless.

Dr. Radway has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purpose of a Purgative, Aperiant, Counter-irritant, Alterative Pill, that can be taken or administered with the absolute certainty of securing thorough evpulsion of all decayed and decomposing element of the human body, and also safe to take in the most malignant of Eruptive Fevers. In cases where the mucuous membranes of the internal viscera are suffering from Ulceration, Inflammation, or from

LIVER
Gastric, Biliary, Pancreatic Complaints,

DR. RADWAY'S PILLS
Supply the only Vegetable substitute for CALOMEL OR MERCURA.

In Radway's Pills you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner As a proof of this—You are seized with a bilious attack! Doctor prescribes blue pills or calomel. Next come drastic aloetic pill or powders, to work off the effects of the blue pills this prostrates you, and a tonic is next given, to agitate aperiant, whereas one dose of Radway's Pills will do all the work that the three or more prescriptions are given for, without running any risk from mecurialising or salivating the system.

Radway's Pills.

In Radway's Pills the true principle of purgation is secured—not alone to the office of dismissing the faces and excrements from the bowels, but these rumors that are checked or stopped in their passage through the Skin, Kidneys, Lungs, and all excreting and secreting functions; for if these excrementatious secretions belonging to the skin, liver, lungs, kidneys, are interrupted in their escape, they become products of decay and decomposition, and must be purged from the living body through their proper channels; hence the purgative qualities of Radway's Pills extend to the secretions of the Skin, Kidneys, Diver, &c.; whereas not one of the advertised Pills claim to act beyond the bowels.

How to take Radway's Pills.

Their daily use.

In doses of one or two pills, by all persons of a dull habit of body, subject to giddiness, rush of blood to the head, palpitation of the heart, and all those subject to fits, will not only keep the blood from becoming congested or clogged up in the blood vessels, but will equalise its circulation, and prevent sudden attacks of apoplexy, disease of the heart, congestion. Persons who will take one of these Pills every day will not suffer from Head-aches, Dizziness, Hysterics, Fainting Spells, Pains around the Heart, and a hundred other disagreeable symptoms.

DYSPEPSIA

One of Radway's Pills, two or three hours before dinner, taken daily, will keep the system free from Dyspepsia, Constipation, Costiveness, &c. &c.

Bear in Mind,

Radway's Pills are the only purgative that will secure an alterative, diuretic, sudorific, aperiant, and tonic influence.

They are the only vegetable substitutes for Calomel or Mercury.

They promote the secretion of bile, and withdraw it from the circulation.

They assist, through their nutritous properties, he chyme and chyle, and gastric juices in the process of digestion.

They are elegantly coated with Gum, perfectly tasteless, and free from smell.

THE BUDGET.

Foreigners and Argentines are equally interested when the finances and revenues of the country are under consideration, but it is remarkable that Minister Dominguez meets with severe criticism from the native papers, the tenor of whose articles would seem to be that the country is going full speed towards bankruptcy and ruin. Among the foreign mercantile circles there is no such alarm, and although a general feeling prevails that there has been much laxity and ambiguity hitherto in the matter of "floating debt," still the present statement is considered to be, on the whole, an improvement.

For the first time since the re-construction of the Republic all its finances, obligations, revenues &c. are set down plainly to the general reader, no less than to the initiated economist. Formerly the revenue was put down at so much, the estimated expenditure so much, leaving a delightful surplus, whereas in the back-ground there were "special outlays," "floating obligations" &c. which left the Republic heavier indebted at the end of the year than the commencement.

The budget may be condensed in a few words:—

The expenditure for 1872 will be 28,600,000$f. but, as this includes 1,800,000$ that is coming from London for the Rio Cuarto railway, the real figure may be more correctly put down at 26,800,000$f., whereas the ordinary revenue cannot be estimated over 16 millions, leaving an apparent deficit of nearly 11 millions. From this, however, we must deduct 6¾ millions of a floating debt, a legacy from last year, so that the real deficit will be only 4 millions, to meet which the Minister proposes to sell the Central Argentine shares ($1,700,000f.) and has to receive 2 million dollars for National Bonds (balance of the 6 million Wanklyn loan). This will leave unprovided for the sum of 300,000$fts., say one week's receipts of the Custom-house, and this is what the panic of our colleagues and their painted terrors amount to.

Neither let it be supposed that the Budget is every year increasing in an alarming ratio: so far from this, the Budget for 1872 is less than last year's by $688,619f. a decrease of more than 2½ per cent. or equal to nearly 2000$f. a day. This is a very considerable saving. In fact if Mr. Lowe reduced the British expenditure by 2½ per cent. the bills would be covered with bonfires, and the tax-payers would regard him as a public benefactor.

Meantime it is certainly true that the growth of the Argentine budget from 1864 to 1871 was something unparelleled in financial history. When President Mitre made his celebrated speech at the inauguration of the Southern Railway in March 1864, he said "Give me a cup of gold, to toast "*British Capital*, which is making this "country go ahead so prodigiously. "Last year our revenue was 6 millions, "this year it is 8 millions, and I hope "to see the day when we shall have "50,000 immigrants a year and a na-"tional income of 12 millions".

General Mitre's expectations have been far exceeded, but it is not only in the budget that our statistics shew such a wonderful development; the growth of the country during the last seven or eight years is amazing, viz.

	1863		1871
Budget	$ 6,000,000	..	27,000,000
Railway	50 miles	..	530 miles
Exports (value)..	£ 3,858,734	..	7.858,938
Post-office [letters]	800,000	..	4,000,000
B. Ayres shipping (tons)	215,853	..	600,000
Imports (value)..	$22,671,000	..	40,000,000
Immigrants	14,000	..	40,000
Newspapers, daily	5,000	..	50,000

In view of these figures we would say, like President Mitre—"Give us 300,000 immigrants a year, and a budget of 50 millions." There is no reason to dread the influx of foreigners for the growth of the budget; both are signs of national progress. It is true that 20 years ago the number of immigrants was counted by hundreds, and the debt of the country was trifling. This year the National Debt, including the new London Loan, is nearly 100 millions fts., and yet the budget is no greater than last year's.

If Mr. Dominguez had followed the plan of his predecessors his countrymen would have been been better pleased, namely, make up a pleasant-looking budget with an apparent surplus, keeping in the back ground 'special outlays,' and 'floating debt.' But he has preferred to show the world how we stand in a single sentence.

The funded debt absorbs $7,816,601, nearly half our ordinary revenue, but this includes the interest and sinking fund of the new London Loan. The floating debt at the end of 1872 will be $8,800 000, which is nearly 2 millions over the amount at the end of 1871.

Some people may be of opinion that it would be wiser to create new taxes, so as to wipe out altogether the item of 'floating-debt'; but the Minister shews how difficult, not to say impossible, such a proceeding would be. On the other hand, how can we reduce the expenditure without injuring the public interests? A saving of 233,000$ ftes. might be effected by abolishing the Argentine navy, which has been since the death of Admiral Brown nothing but an empty name—"vox et præterea nihil." Some reductions, we fondly hope, are also practicable in the War-office, which takes nearly one-third of the total revenue.

As regards all other branches of the service we could wish to see them rather augmented. The only novelties that we observe in this year's budget are an item of 5 0,000$f. to move the frontier out to Rio Negro, which will probably prove money well laid out: also 100,000$ for new Custom-stores, and $25.000 to discover coal-fields in the Republic.

The salaries of Ministers, Congressmen &c. are unchanged, but we feel tempted to say that Congress is very dear at 340,000$f. per annum, and Roads and Bridges very cheap at 152,000$. We not that the Post-office costs 215,000$ and produces only 120,000$; nevertheless it would be better if the Government provided Mr. Posadas with better premises and a larger staff.

The vote for Immigration purposes is put down at $146,000, double the sum for last year. The Provincial subsidies consist of grants of $f. 15,000 a year to each of the following provinces;—Sta. Fé, Entre Rios, Corrientes, Cordoba, Santiago, Tucuman, Salta, Mendoza, San Juan, Catamarca and Jujuy; $20,000 to San Luis, and $35,000 to Rioja. We are saved two heavy items this year, the Census and the vote for the Cordoba Exhibition, together $400,000 fts. In other particulars the items of the Budget are almost unchanged, excepting always the interest on the Public Debt which is this year so much heavier since it includes (as Mr. Dominguez states) the whole of the London loan.

The increase of the floating debt is the only disagreeable feature in the financial prospects of the Republic, but it cannot be wondered at this year, seeing the expenses of the Entre Rios war, and the effects of the recent epidemic.

We positively feel inclined to compliment Mr. Dominguez on his budget, as the best thing of the kind for many years. His countrymen have raised a deal of noise about his figures, as they generally do, whenever large sums are spoken of. They are afraid of devoting two or three millions for city improvements, and now they get frightened at the money they have themselves spent in other, less useful, enterprises.

Meantime, the price of produce and real estate has risen, the prospects of the country look well, and the Budget for 1872 shews anything but a wasteful expenditure of money, or a menace to our future financial condition.

IMPORTANT FROM E. RIOS.

ECHAGUE MADE GOVERNOR.

By favor of our esteemed correspondent, D. Jorge Suarez, who is at present at Uruguay, we receive the following bulletin of the *Uruguay Democratico*:—

Anticipating our issue of to-morrow, we give our readers the following very important intelligence, which we will publish to-morrow with full details:

D. Emilio Duportal, having yesterday tendered his resignation as Governor of the province of E. Rios, the Chambers met to-day (20th ult.), accepted his resignation, and two hours afterwards unanimously nominated Dr. Don Leonidas Echagué to fill his place.

The attitude of the Chamber has been decided, energetic, and patriotic, and such as the exigencies of the circumstances required.

Entre Rios ought to be well satisfied with those citizens that so well represent its interests.

Those who may have thought that the friends of the situation would vacilate for one moment will have to confess that they have once more made a mistake.

Echague is the impersonation of the great party of Liberty, and destruction of the 'caudillaje.'

Our esteemed correspondent informs us, further, that at the announcement of the nomination the bells struck up a peal, the band of the 6th of the Line played the National Hymn, and rockets were fired.

Yesterday the newly appointed Governor was to take the oath, to be followed by the celebration of Mass. In the evening a great banquet was to take place.

MONTEVIDEO.

[*From our own Correspondent.*]

August 29, 1871.

Here we are again! This was the opening sentence of an extremely eloquent discourse which the Rev. Mr. Spurgeon pronounced before a very numerous audience; and with this exclamation your correspondent now once more ushers himself into the presence of your readers.

If one had not the strongest conviction of the contrary, it would almost appear that the greater part of the English population of Montevideo were of the feminine sex, such is the curiosity exhibited by all to discover the personality of 'Othello.' At the Club, when playing billiards at night, your correspondent frequently hears himself discussed, and his literary productions criticised so unmercifully, that he has to subdue the rising passions of the Moor and take upon him the philosophy of the Stoic, in order to avoid replying to the remarks made upon him, or laughing when he sees his burden transferred to the backs of various innocents who have the credit of furnishing you with the said effusions. The other night at Mr. Richard Wilson's party, a group of four had been in conversation for a short time, when the unfortunate 'Othello' was brought up to notice, and in the hearing of your correspondent one of the four suggested that they should take notice of all the Englishmen present, 'and then,' said he, 'we can reduce it to so small a number of persons that if 'Othello' writes anything about the events of to-night we can spot him (sic) in a moment.' Your correspondent, on hearing this, resolved to afford the members of this group the opportunity of discovering him by mentioning the conversation in question in his next letter, and throwing down the gauntlet to these clever young men. Apropos of the party on the 24th, it went off splendidly, and was an elegant affair, two gallants with powdered hair being especially admired by the fair ones. Dancing was kept up until about five o'clock on the following morning, and it is even rumored that some of the more youthful partizans of Terpsichore were seen after this hour wending their solitary way home, blinking their eyes as the staid bird of Minerva when his offusiated vision is affected by the bright rays of the God of Light.

Don Fernando Torres, the late Minister of Government, when writing to the President tendering his resignation, uses language which must have been drawn from the immediate study of the closing chapters of Cicero's fourth oration against Catiline; he calls the National Guard to witness his valiant conduct in the hour of peril, and the President to testify his important services when danger was no longer nigh. He became Minister when the revolution was almost triumphant, and descends to private life leaving the rebellion vanquished, and its affrighted and starving hordes fleeing before the Government soldiers to the frontiers of the Republic. Unfortunately for the effect which all this was supposed to produce, we, next day to its publication, received the news that a Government division, under Generals Fidelis, Illa, and Barboza, had been completely routed, and its chiefs slain by the Blancos; next that Rosario Oriental had been besieged and taken by another division of the White army: the Government officer and troops who held the place being taken prisoners; and now the daily papers state that the whole North of the Republic is again in the power of the Revolution, and announce that Aparicio and Muñiz have already crossed the Rio Negro in that direction. The resignation of Sr. Torres has been accepted by the President, and under yesterday's date a decree is published naming Don Daniel Zorrilla as Minister of Government, and Don Duncan Stewart as Minister of Finance; let us hope that the talents and assiduous labors of the two new Ministers may infuse at length a little life into this poor Oriental Lazarus, and raise him up from the tomb which before long will irrevocably close upon him, if something be not done in his behalf.

We have now got here a 'Scandalum Magnatum' for our entertainment. Sr. Farini, partner in the 'almacenero' firm of Farini hijo and Gonzalez, wrote to the Minister of Government a few days ago a letter in which some unpleasant remarks were made as to Don Francisco Estèves and the administration of the lottery, which is farmed out by the latter. The next day's paper contained a letter to the Editor from Sr. Esteves defending himself and stating that S. Farini is at the same time the 'Proveedor' and 'Administrador' del Hospital de Caridad, putting the 'conforme' for payment on his own accounts. Yesterday Sr. Farini replies with stronger accusations against the lottery and Sr. Esteves, while in to-day's *Siglo* the latter gentleman informs the public that he is immediately going to prosecute Sr. Farini for libel. There is an old proverb which says, "Peleando las comadres se descubren las verdades," and it may be that the public may gain by the exhibition of what passes behind the scenes both in the Hospital and the Lottery, but we much fear there will be too much smoke and too little fire, and that nothing at all will come of the affair for "Les loups ne se mangent pas entre eux."

The Company Societé Generale de Transports Maritimes à Vapeur between Marseilles and the River Plate has transferred the agency of the steamers to Messrs. Mauricio Llamas and Co., Calle Zavala No. 132.

Yesterday was the birthday of Don Agustin de Castro, and to celebrate this event as well as the successful issue of his claim on the Government, there was a grand dinner party at the above gentleman's lovely quinta at Paso de Molino. The affair was on a magnificent scale, and went off with the greatest eclat. We believe the celebrated orange trick was not exhibited!

General Goyo Suarez has been offered the portfolio of War, but has not yet accepted office, although it is expected he will do so.

To-morrow there is to be a Grand Cricket Match between the Married and Single Gentlemen; your correspondent plays still under the flag of the latter, and hopes to save his duck-egg.

UNITED STATES.

GREAT RIOT IN NEW YORK CITY.

(*From our own Correspondent*)

New Jersey, July 20.

The terrible scenes enacted in New York last week have taught a lesson to be long remembered. It is due to the Archbishop McClosky, as also to the Roman Catholic clergy, to state that they did all that was possible to prevent any disturbance; but, as events proved, they tried in vain. The facts of this disgraceful riot are as follows:

As all your readers are doubtless aware, the 12th July is held by Orange men throughout the world as a day of general rejoicing, it being the anniversary of the battle of the Boyne. In the States, as elsewhere, Orange lodges have been in the habit of keeping this day in the usual manner, though their processions have been always interrupted by armed mobs. For instance, last year, although nothing more than a quiet pic-nic was intended, a large mob assembled and drove the Orangemen off the grounds.

To guard against such a mishap this year, it was generally understood the latter would be armed for the purpose of self-defence. Rumors having reached the ears of Mayor Hall and Police Superintendent Kelso to this effect, it was determined to forbid any processions etc., which Mayor Hall accordingly did in a proclamation issued on the 10th of July.

On certain sides the city press was almost unanimous in denouncing Mayor Hall, and in very plain terms demanded that the Orangemen should not be denied a right freely allowed to the Irish on St. Patrick's day when that anniversary came round. The *Times*, at the close of an article, used these words: "We are officially informed that we live under the rule of priests and rowdies. Protestants may be allowed to walk the streets in twos and threes, but never let them dare to form a procession!"

Such was the general outburst on the part of the papers that Governor Hoffman was communicated with, and came down from Albany immediately. It is right to say that the more respectable people of New York fully supported Mayor Hall.

Feeling ran all the higher because Governor Randolph, of New Jersey, had issued a proclamation granting Orange lodges full permission to parade, and promising them protection if interfered with in this state.

Governor Hoffman, after some deliberation, concluded to revoke Mayor Hall's orders, to the great annoyance of the more respectable people of New York, and by about 12 o'clock on the 11th all police stations were duly notified of the fact; besides giving the Orangemen permission to parade, the Governor promised the assistance of the civil and military force to protect the procession, as also to preserve order. During the night large bodies of troops entered the city, the militia being called out to the strength of 11 infantry regiments and one of cavalry, several batteries being held in readiness. The troops were provided with forty rounds per man.

Early on Wednesday morning, the 12th, mobs were to be seen gathering along Eighth Avenue, many of the men being armed. However, the procession formed at Eighth Avenue and Twenty-sixth Street, in the following order;—

First 700 police, then the 22nd Regiment, after which marched the Orangemen, scarcely 300 in number, owing to the short time given for their assembly; the rear was covered by the 6th and 9th Regiments, with an additional force of 700 police. Scarcely had the procession started when it was assaulted by showers of brickbats, stones, and every other kind of missile. The rioters obtained possession of a large brick pile at the corner of Fourteenth-street and Broadway, from which they were driven after a hot fight, by two companies of the 11th; the garrison at Mott-street was increased to prevent a rescue of prisoners, and every means taken to preserve order, since it now became evident that there was warm work in store. In the meantime the procession moved slowly on, enduring the showers of stones and bricks without returning a shot. Just after passing Twenty-second Street a shot was fired into the rear of the 9th Regiment, which immediately received orders to fire; the whole regiment, shocking to narrate, obeyed, firing down the side-walks indiscriminately, from which, as well as from the houses on either side, irregular volleys were being fired into the troops. One company deployed as skirmishers, and shot at every head daring to show itself out of the windows. Several rioters were shot on the roof of the houses while in the act of aiming at the procession. In the Eight Avenue the fight was most desperate, but in five or ten minutes the streets were cleared, though the police had tremendous clubbing exercise with the scattered rioters. Order was quickly restored, the city being quiet once more by 11 p.m. On arriving at Cooper Institute, at the corner of Fourth Avenue, the procession dissolved, the Orangemen quietly dispersing among the crowd, leaving their banners in the hands of the police. The result of this riot are reported as follows:— Killed, 42; wounded 175; prisoners, 200.

It will be remembered that some time since it was petitioned that Judge McKean should be removed from office in Utah, by the decision of the judges of that place; in his trial Senator Stewart, of Nevada, took a leading part, with a view to petition for his removal. Stewart was sustained by the Mormons, McKean being upheld by the so-called Gentiles. The whole case came up for examination before Grant, who has decided to reinstate McKean; his opinion thus coincides with that of the attorney-general, so that after all the difficulty will be settled contrary to the wishes of Brigham Young & Co.

The census for 1870 gives the following as the population of the United States (the 37 states and 10 territories) total white population, 33,567,368; total colored, 4.780,141; total population, 38,347,509. The increase of the whites during ten years in the Northern States is 27·4 per cent., in the Southern States 16·6 per cent., of the coloured race respectively 52·7 and 4·6; evidently this difference is owing to the colored exodus north. There is an increase of white population in the south of 1,335,201, and in the north 5.137,848.

One of the largest lumber dealers in Maine, who has probably had dealings with South America recently, had to ask indulgence of his creditors, his liabilities being over $300.000, assets scarcely $140,000. I will not mention his name for various reasons.

For lack of space in your columns, more than for lack of news, this letter must stop.

PICKYONE.

CENTRAL ARGTINE RAILWAY AND LAND COMPANIES.

I have read with satisfaction your defence of the above companies in the STANDARD of the 27th inst. It is really incomprehensible why such a defence should have been needed at all. However, under the strange circumstance of a Minister of a liberal and enlightened Government going out of the sphere of his ministerial capacity to attack in such a virulent manner a company that has completed the grandest work in the republic, it behooves all Englishmen at least to protest; and with greater reason as the language of Mr. Velez Sarsfield is a covert attack on our countrymen as well as a practical expression of an ill-disguised antipathy to all the foreign element in this country.

The high respect that I have for the great talents of the Minister of the Interior adds to the deep regret I feel that he should allow a private pique or personal animosity to have warped his better judgment to the extent of doing a manifest injustice to a respectable company which has just completed the longest line of railway in South America, and in such a manner that very few roads in the world can excel it.

It was my ungrateful duty a short time ago to correct the Minister of the Interior in reference to some statements he made in his minute to Congress regarding the Land Company, and I then thought that it would have been a much wiser course if the Minister had sought for truthful information before placing before Congress a document containing statements so easily proved to be without foundation.

The same thing may be said of his remarks on the Railway Company. For instance, that want of stations is one of the causes of the small amount of traffic, and that only two permanent stations are built on the line, those at Fraile Muerto and Villa Maria, when besides these there are handsome permanent stations built at Cañada de Gomez, Ballesteros, and Rio Segundo, and if the grand station at Rosario is not finished, there is at least good accommodation for passengers, and splendid buildings of every other description.

As for the assertion that the want of accommodation on the line is the cause of the small amount of traffic, it is hardly worth taking any notice of. The small amount of freight is to be accounted for simply by the fact that there is so sparce a population to produce; and when we see that there is scarcely an average of three passengers daily from the populous city of Cordoba when the fare is only twelve dollars, we are obliged to believe in the discouraging fact that no facilities offered to such a thoroughly inactive people would induce them to change their indolent mode of life. In the days of stage coaches and five or six days to Cordoba, at the cost, including meals, of twenty-five dollars, just as many Cordobeses, and possibly more, travelled between the two cities.

And yet the Government ideas of justice insist, on the one hand, that the company make the road pay seven per cent., and on the other hand insist on their lowering their tariff. They wilfully ignore the fact that lower fares and freight cannot create what does not exist, and cannot exist until we increase the producing population and change the character of the present; and in the meantime the company must preserve its own interests, which Mr. Velez Sarsfield appears to ignore their right to do. Let the Minister make this proposal to the Central Argentine:

"We are so convinced that you will gain more by lowering your fares, that we consent to refund the deficit beyond a certain amount if you lose by cutting the fares down to one-half of what they are now."

Long railways cannot pay in this country until the population increases—this is so palpable that the empresarios insist on a guarantee. Supposing a line made to San Juan: it is by no means certain it would transport goods as cheap as mules do it now and secure a profit of seven per cent.; but even in face of a certain loss for the first few years, it is the duty of the Government to build railways or have them built, for they are the great attraction for a foreign immigration and colonization.

English companies, like others are not going to invest without some guarantee of making money, and no Government has any right to interpose in the very obnoxious manner that Mr. Velez has done. Instead of expostulating with the Railway Company, if any reprehensible act was committed by them, he listens to the tales, the greater part of them entirely false, as has been proved, of people as completely ignorant of railways and railway organization as the Pampa Indians.

That there are continually legitimate cases of complaint against all kinds of corporations, and even against Ministers of the Interior, no one can deny. But that the absurd pretentions, the malicious and ridiculous stories of the people of the Interior, so ridiculous that the company have not thought it worth while to contradict them, should be elaborated into a gross attack on a great company, and that by a member of the Cabinet, is scarcely credible. It is more like the ebullition of a blind spite against persons than the candid statement of conviction.

And the very fact that the charges are vague, make them more undignified and malicious. Those that are specified are easily proved either to be grossly exaggerated or entirely untrue.

The greatest criminals have a chance of defending themselves; but the National Government through its Minister, arraigns the Central Argentine Railway Company before the nation, and asks for its condemnation without even bringing forward a single proof worthy of being entertained.

That it has English servants.

Is this a crime? The English servants at all events speak the language of the country. And where are the Argentines who can replace them? I am almost an Argentine, and certainly no one will doubt my good faith when I say that I interest myself in everything that concerns the progress and dignity of the country; but I cannot blame the Railway Company if they prefer skilled to unskilled labor.

That the stations are not all built.

Is it a crime that the original capital should have been all expended on the road (thanks to the Paraguayan war and the delays it caused) and there was none left for the stations? This is a very simple affair and occurs every day. The Directory has voted a sum of money to build them.

That the principal domicile of the Company is in London.

This was allowed by the former Government, and is certainly no legitimate cause of complaint. This is like doing a person a favor and then repenting of it, and abusing the person for having accepted it.

As for the high rate of tariff, Mr. Cooper has publicly proved that that of the Central Argentine is as low or lower than other lines in Buenos Ayres where a dense population would seem to warrant the lowering of prices.

Mr. Velez Sarsfield may perhaps congratulate himself on having struck a dangerous blow to the credit and interests of the greatest Railway Company in the country, lowered the value of the shares, of which the Argentine nation own twenty-five thousand, and paralyzed the progressive operations of colonization; but sensible and thoughtful men will only see in the conduct of the Minister a suicidal blow to the interests of this country, the credit of its Government and the reputation of the Minister himself.

EDITOR'S TABLE.

The land auctions at the Lomas de Zamora on Wednesday gave splendid results, some lots fetching as much as $800 m/c. per vara front. In our city article particulars will be found. We regret to hear that the day's proceedings were marked by the unruly conduct of some young men who ought to have known better.

Many of the numerous friends of Mr. H. T. Grigg, the well-known English broker, were seriously alarmed by an announcement in the native papers of Wednesday morning, to the effect that a person of the same name had been run over by the tramway at the Cinco Esquinas on the previous day. We are happy to say that Mr. Grigg is safe and well, and has met with no such accident.

The discussion in the Chambers on the necessity for a change in the management of the Western Railway has

resulted as follows: the Government will henceforth name the board of directors, who shall have the power to name and remove the manager and all other employés; the directors will also draw up the report and send it direct to Government; the attributes of the manager will, for the future, be determined by the board. The sale of the line is again mooted. We have always advocated the measure. It is clearly impolitic to leave so much public money locked up in this undertaking, which could be managed more efficiently and at less cost by a private company, while the proceeds of its sale might be more usefully employed in city improvements.

We are sorry to hear that one of the members of the B.A.C.C. met with a serious accident on Wednesday while at practice with the Club. In running to catch a ball he collided with another player, also having a try for it, the result being a dislocation of his jaw.

Wednesday was one of the most inclement days experienced this season. A bitterly cold pampero blew from early morning, and the dust on the suburban roads was blinding, putting a stop to fashionable airings 'en voiture' or on horseback. Palermo and those resorts usually most favored were deserted, and the railway traffic also suffered from the boisterous nature of the weather. Santa Rosa seems likely to limit her attentions this year to wind.

A Santa Fé paper announces the shocking fact that a dead body was left to rot in the public street, opposite the old market in that town, all through last week, and when in a complete state of putrefaction was placed against the wall of the College, where hundreds of boys are at school. The Municipality and Police of Santa Fé must have strange notions of hygiene, and none at all of decency.

It is announced that Sr. Duportal, lately elected Governor of Entre Rios, has resigned that post. This is a misfortune for that Province, as Sr. Duportal was the right man in the right place.

It is generally believed that ex-President General B. Mitre will be named by the National Government as Plenipotentiary to conclude with Baron Cotegipe the definite treaty of peace and boundaries with Paraguay. This appointment will give great satisfaction, as it would be impossible to entrust such momentous negotiations to better hands.

The new uniform for the officers of the army, decided on by the Military Commission, is said to be so costly that the wretched pay the officers receive will not enable them to provide it.

The *Capital* of Rosario announces that its chief editor has been threatened with assassination; on Monday last he was attacked and ill treated in the streets. The police cannot be up to the mark in Rosario.

On Thursday, the 24th instant, a public library was inaugurated at Exaltacion de la Cruz. Several ladies assisted at the 'funcion,' which was very gay.

H.M.S. Cracker is now in port 'en route' for the Uruguay. We feel great pleasure in saluting her gallant commander, Captain Dennistoun, and his officers.

We have dates from Paysandu to Wednesday morning last. The local papers announce that Department as perfectly quiet, and free from Blancos, while Aparicio is said to be making for the frontier, pursued by some detachments of government troops. A number of Blancos at Consepcion del Uruguay are awaiting a favourable moment to cross the river; they are believed to be all well armed. A bull-fight, attended with the usual disgraceful torturing of the animals butchered, came off at Paysandu on Sunday last.

We have a most agreeable piece of news from Montevideo. An enterprising English resident there has made arrangements for starting Bathing machines on the Playa Ramirez during the coming summer. These machines will be the same as those used at Brighton and other fashionable English watering places, and will hold four persons each; every toilet convenience will also be supplied, the whole at a very low charge. The Eastern Tramway will take bathers down to the water's edge, and the machines will do away with the inconvenience of walking in and out of the water over rocks and stones. This is one of the best speculations we have heard of for a long time, and supplies a want much felt at the Mount. Buenos Ayres would be in luck if some one would do likewise here, where a 'header' is a thing unknown. We intend to ask our 'Special' in the sister city to try the Playa Ramirez baths, and report on them; meanwhile, we anticipate that they must prove a tremendous hit.

The new offices of the Popular Argentina Company in Calle Piedad are the most gorgeous business premises in the city. The desks, 'fateuils,' brass railings, &c. have a look of go-a-head prosperity about them that is most exhilarating; the ambient is redolent of money and high premiums, prizes, &c. We hear that the business of this Company is increasing so much that the Directors cannot sign tickets fast enough to meet the daily increasing demand for them.

A private letter from Dolores. B.O., gives us particulars of the last fight between the Reds and Whites, near Tacuarembo. The Reds were worsted, being very few in number, only 40, while the Whites had fully 500 men. They surrounded the Reds on every side, and cut them to pieces. Two of them escaped with news of the disaster; two officers were killed and two wounded. Galarza and his men were in Dolores on the 28th ult. An Italian deserter from the Blancos offered to lead the Reds to where a large number of the rebels were concealed; we believe his services were accepted, but the result is not yet known.

The Chilean papers state that the new railway from Chañaral to the mines in that neighbourhood was to be opened on the 20th ult. Great preparations were making for the inauguration. This line has been built by the merchants of Valparaiso. Mr. George Stephenson is the engineer.

An aerial railway has been tried at Lyons with success. A wire is stretched along iron poles 20 feet high, and the balloon is attached to this and moved by a stationary engine at either end of the line. For passengers and for a short distance the new invention answers admirably, the traveller experiencing a sensation as if flying; the almost total absence of noise is also greatly in its favour.

The Paris papers announce the death of Jean Eugene Robert Houdin, the famed French prestidigiateur. He was born at Blois, on December 6th 1805. In early life he became a notary, but his fondness for mechanical inventions soon induced him to forsake the law for the practice of sleight of hand. He next appeared as a showman and 'wizard' in 1830, and continued in public life thenceforward. In 1856 the Emperor Napoleon III. sent him to Algeria, where he confounded the native magicians who were trying hard to undermine the authority of the French, by beating them at their own tricks. His chateau was celebrated for many years by the extraordinary devices contrived to open doors, gates and closets, set clocks, ring bells, and perform other domestic services for the occupant and inventor.

It is said in Montevideo that General Suarez has been offered the War portfolio, but it is not yet known if he will accept the thorny post.

On the last trip of the Silex to Montevideo, a Spaniard, named Barra, who took passage at this port, flung himself overboard in mid-river, and was drowned. Amongst his papers were found some money and a letter setting forth his intention to commit suicide.

The last accounts from Bahia state that yellow fever has almost disappeared from that port. It was by no means as bad as reported, only 83 persons having fallen victims to the disease in the first six months of the year; all these victims were foreigners except 18.

The Boca Tramway is completed and will be thrown open to the public in a day or two.

We hear that Mr. G. P. Craufurd, is on his way back from Rioja, and may be expected in town next week.

Drs. Malaver and Moreno have drawn out a bill for the better regulation of the Municipality. The project has been submitted to the Provincial Chambers by the Executive.

There is confusion indescribable every day at the Patente Office, where applicants squeeze, and push, and abuse each other all day long in the struggle to get to the clerks to take out licences. More clerks should be employed in order to do away with this unseemly state of things. The only chance for applicants at present is to sleep on the door-steps of the office, so as to secure first place in the morning.

The Public Works Committee of the Municipality have decided that Calle Santa Fé be macadamised throughout is entire length. This will make this fine street a Boulevard of which Buenos Ayres can be proud. The work will cost three millions of paper dollars.

The Italian Consulate was broken into and robbed on Sunday night; the burglars disdained to take anything but whatever money was in the office: we believe the amount was very trifling.

We call the attention of railway travellers to the change in the Western Railway time-table, which takes place to-day.

There is a good acrobat company in town at present. They appear on Sunday at Barracas.

CRUELTY TO ANIMALS.

Messrs. Mulhall,

Dear Sirs,

Being one of the directing commission of a society started here for preventing cruelty to animals, I take the liberty of making the following request, namely, that you entreat the people in your city, by means of the STANDARD, to form a society there for the same purpose. As you are aware, they have proved themselves useful everywhere they are in existence, and above all places such societies are most required in a country like this where animals are so very cheap. Our society promises to do well, and the most influential people in town are members of it, and we expect to get many more, as it was only commenced about three weeks ago.

The barbarous cruelties continually permitted to animals are, no doubt, in many instances what cause the people to be so cruel to each other, and make them take lives so freely with the knife, as they get hard-hearted.

Now, if people are tender-hearted to animals, they ought to be so to each other with more reason; therefore, let us try and make them so. Such societies, like everything new, have always found opposition, but that does not dishearten us, we are prepared for it. At present each member is to pay $1 Bolivian per month, but we are in hopes soon to reduce the subscription to half that sum, by getting many more members.

Many of the society had often, both here and in Buenos Ayres, tried to interfere and stop cruelties when they saw them occurring in the streets, but they, as usual, got bad language in return for their good intentions, and could not have any influence; so when this society was proposed to them they were glad to join it, and be of some use without exposing themselves to insult and bad treatment.

Hoping you will take this into consideration, and further a good cause, and excuse me intruding on your time,

I am,

Yours very sincerely,

BRYCE MCKINNON.

ARREST OF A TELEGRAPHIST.

August 29, 1871.

To the Editors of the STANDARD.

Gentlemen,

In making the correction in to-day's paper—which was very necessary, for having printed 'Montevidean' instead of 'National'—the application of your observation that the mistake was an obvious one does not follow, except in the case of Mr. Furze personally; as I must say, in justice to Mr. Callow, whom I employed, that both in England and this country he was always held to be perfectly honest, and he affirms that his arrest is the result of an accident which could occur to anyone.

Yours truly,

CHAS. BURTON.

ON 'CHANGE.

August 31st, 1871

Ounces	400
Sovereigns	125
Patacons	25
National Bonds	71

This being the last day of the month there was a stir in the Bond market, prices opened very weak at 70⅞ cash, and the bears thought to drive the market down to 70, but although 25,300 were throw cash on the market prices did not give way to the extent anticipated, and everything offered was bought up at 71 at which rate prices closed. The sales on time were as follows:—For September 30th, 10,000 at 71½. Sept. 9th 5000 at 71½. For the end of September there were several buyers at the above rate but no sellers.

In Municipal Bonds 30,000 sold at 85½, and in Roads and Bridges stock 12,000 sold at 86½ which is the highest rate that has been paid for this security.

A painful anxiety was felt on 'Change to-day when the rumour got about that the Courts had issued an order for the arrest of one of our leading German barraqueros who, it appears, has been acting as arbitrator in a lengthened German lawsuit. After much litigation the questions at issue were left to the arbitration of the Barraquero in question, who deservedly stands amongst the first in commercial circles. The decree issued to-day ordered the Provincial Bank to pay over the moneys deposited there, and the immediate arrest of the Referee. Such an extraordinary order by the Courts puzzled everyone to understand, and indeed the procedure of the Courts in commercial questions is ever enveloped in such a mist that not even the litigants themselves at times can understand the judgments. The order to-day for the arrest of so eminent a barraquero, led to the most searching enquiry: but up to the closing hour of the Bolsa merchants and barraqueros understood about as much concerning this extraordinary decree as they do of the original Schloswig-Holstein difficulty.

At the auction to-day of sheep and rams, from Mr. Latham's chacra, the animals sold well. The first lot of about 20 averaged $2,000 each.

After the land auction at the Lomas de Zamora on Wednesday, Sr. Rodriguez, the popular auctioneer, put up a small house close by, which was knocked down for $74,000 m|c.

The firm of Lamas and Rohl was dissolved today by mutual agreement, and the firm of Lamas & Co. formed, which will carry on the business of Lamas, Rohl & Co., and also of Andres F Lamas. Mr. Rohl remains as general manager of the Barraca business.

The review of the money market, by the manager of the Franco Platense Bank, treats largely on Sr. Balbins's project of a Government mortgage bank and approves of the proposed measure which the writer thinks is highly calculated to benefit not only property holders, but also the banks, the public, and the present circulating medium. It appears that there is every probability that either of the two measures now before the legislature—Mr. Luis Martinez's project or Mr Balbin's—will be passed at the present session. Either measure would immensely affect the value of property, both in town and country; and, in view of the probability of either of these bills being passed, property holders evince a less disposition to realise at present prices.

The auction sale of building sites at the Temperley station, near the Lomas de Zamora, on Wednesday was a splendid success. All the property offered was sold, and those sites near the Railway station realized $820 m|c. per vara front, with 70 varas depth, a very splendid price for property in that direction. The sale of 20 squares of land, at $5000 m|c. per square, announced the other day was a "bona fide" sale, and bought by an Englishman; but the property is distant six squares from a proposed new station, between Temperley and Bursaco stations.

Mr. Oldham, the active manager of the Montevidean Telegraph Company, left this city on last Friday to see to the repairing of the line, which for some days past has been persistently cut by the belligerents.

CONSTIPATION CURED! Dr. C. W. Nelson, of Boston, Mass., author of 'Clinical Observations on the Treatment of Abdominal Diseases," says, in a letter dated February 27th, 1862: "I consider BRISTOL'S SUGAR COATED PILLS the best remedy for Chronic Constipation at present known. With me they have never failed, and I have prescribed them in at least fifty instances." He also states: "That for all irregularities of the digestive functions, the liver, and the bowels, they are by far the most useful medicine he has ever prescribed—perfectly safe, and eminently reliable." Similar testimony is volunteered by Dr. Lettsom, of Chicago, Ill., who enumerates thirty cases, with names and dates, in which he has administered the pills, with entire success, for habitual costiveness and piles. Wherever they have been used as a remedy for liver and bowel complaints, the result has been equally satisfactory. In all cases arising from, or aggravated by impure blood or humors, BRISTOL'S SARSAPARILLA should be used in connection with the Pills,

SAVINGS BANK.
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current we now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned. Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules estabished by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Taylor Brothers, discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. PETER MOLLER'S
[Knight of the Vasa Order.]
PUREST COD LIVER OIL.

Free from disagreeable Smell and Taste.

This celebrated Oil, which is made on an entirely new method, invented by Mr. Peter Moller, of Christiana, is now acknowledged by the Faculties and the most eminent Physicians of Europe, to be the best Cod Liver Oil known. It is the only one for which the following Exhibition Medals have been awarded, viz.: 1862 London International Exhibition—The only Medal.

1865, Bergen Royal Society of Norway—The only Gold Medal.

1866. Boulogne International Exhibition—The Great Silver Medal.

1867, Paris International Exhibition—The only Silver Medal, heading 27 competitors.

The fact, that it is made under the immediate superintendence of Mr. Peter Moller, at his own Manufactories, at the Lofoten Islands, where it is bottled, sealed, and capsuled, as a guarantee for its genuineness, as well as that it will keep in every climate for years without turning rancid. DYSENTERY, CHOLERA, FEVER, AGUE COUGHS, COLDS, &c.

DR. J. COLLIS BROWNE'S
(Ex Army Med staff)
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the Inventor of CHLORODYNE that the story of the Defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J. Collis Browne was the discoverer of Chlorodyne, that they prescribe it largely, and mean no other than Dr. Browne's.—*The Times*, July 12, 1864.

The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE
REMEDIA, USES AND ACTION.

THIS INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while Medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma, Rheumatism, Neuralgia, Cough, Cramp, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See *Lancet* Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay:—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after 18 month's severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports [Dec. 1865] that nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered the patient recovered.

Extract from *Medical Times*, Jan. 12, 1866.—"Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not 'supply a want and fill a place.'"

Extract from the General Board of Health-London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

Beware of spurious and dangerous compounds sold as CHLORODYNE, from which frequent fatal results have followed.

See leading article, *Pharmaceutical Journal*, Aug. 1, 1869, which states that Dr. J. Collis Browne was the Inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr. J. Collis Browne" on the Government stamp Overwhelming medical testimony accompanies each bottle.

Betts's Capsule Patents,

To prevent INFRINGEMENTS NOTICE IS HEREBY GIVEN, that BETTS'S NAME is ON EVERY CAPSULE he makes for the principal merchants in England and France, thus enabling vendor, purchaser, and consumer, not only to identify the genuineness of the Capsule, but likewise the contents of the vessel to which it is applied. The Lord Chancellor, in his judgment, said that the Capsules are not used merely for the purpose of the ornament, but that they are serviceable in protecting the wine from injury and insuring its genuineness.
